DENVER: Promoting Equitable Outcomes – Ensuring Access to Essential Resources

1. Denver Water

Denver Water, a municipally owned agency, is committed to providing high-quality drinking water to its customers. The agency serves over 1.5 million people in Metro Denver, Colorado, with a mission to ensure the safety, reliability, and sustainability of the water supply. Denver Water is dedicated to meeting the water needs of its customers while protecting the environment and maintaining the health of the Colorado River Basin.

2. School Board

The Denver Water Board is composed of seven members, appointed by the Mayor of Denver and confirmed by the Board of Directors of the Denver Metropolitan Water District. The Board's mission is to ensure the efficient and effective operation of Denver Water, while balancing the need for water supply, water quality, and customer service.
